

Maximum security key lock box with illuminated buttons

Wolflok is a maximum-security mechanical key lock box engineered for ultimate protection and ease of use. Developed through extensive customer feedback, Wolflok offers unmatched durability and security, making it the ideal solution for both commercial and residential use.

To ensure the highest level of protection, Wolflok undergoes rigorous third-party testing by world-renowned security certification body, BRE. Wolflok has achieved an LPS1175 Issue 8 A10 attack security rating from the Loss Prevention Certification Board (LPCB)—demonstrating its resilience against tampering, forced entry, and malicious attacks.

Featuring 9.7 million possible code combinations, reinforced anti-saw pins and an advanced anti-pick mechanism, Wolflok delivers unmatched security for storing and accessing keys.

Its illuminated, easy-press buttons and featured designed for one handed use make it simple to use and reliable, while maintaining the highest level of protection, providing 24/7 key storage you can trust.

Unparalleled security

Wolflok is made of strengthened zinc alloy which is corrosion and attack resistant. The double-wall construction, coupled with strategically positioned attack-resistant reinforcement pins, provide unrivalled security. It features a world first multi-push locking mechanism which has been engineered to offer enhanced reliability and safety. Patented multi-push technology allows each button to be used up to four times to form a more memorable code, resulting in over 9.7 million high security code combinations, unparalleled by any other mechanical key storage device.

Illuminated keypad and vault

Wolflok features a keypad with ten soft-touch, large buttons made from tough plastic. Each button is backlit by the inner lighting module for maximum visibility, once activated. An internal light also illuminates the inner compartment for ease of use.

How can **Wolflok** be used?

The **Wolflok** range of key lock boxes have many applications including access for domestic homes, security services, key holding agencies and facilities management companies, remote sites, property management, equipment storage, after-hours delivery, alarm or emergency access, as well as providing secure storage for spare keys and emergency entry if you are locked out or have lost your keys.

Installing **Wolflok**:

- Four heavy-duty, self-tapping masonry screws and a marking template are included for mounting the key safe on brickwork, concrete, stone and single skin walls.
- Alternative fitting kit is available for installation on a rendered surface
- A full instruction manual and additional resources are provided and can be accessed digitally via the built-in QR code on the front of the key safe.

WolfloK features & benefits:

MAXIMUM SECURITY LOCK BOX: Attack tested by an independent test house in the UK to the **LPS1175 Issue 8** standard, achieving an **A10 security rating**.

ATTACK RESISTANT: **Double-wall construction**, strategically positioned **attack-resistant anti-saw pins, coned anti-drill hinge pins, clamshell anti-prise design and advanced anti-pick mechanism** to provide unrivalled security.

ILLUMINATED BUTTONS AND VAULT: Clear visibility day and night thanks to our **patented illumination technology**. No additional power source required.

ULTRA HIGH CODE SECURITY: Unlimited code changing with **over 9 million combinations; same digit can be used up to 4 times** allowing ultimate flexibility, using **our world's first patented mechanism**.

LARGE CAPACITY: **Two internal hooks** to keep keys tidy with plenty of **room for up to 6 keys, fobs and access cards**. You can easily and safely retrieve and replace your keys without the hassle of them falling out. Hooks can be removed as required before installation.

ACCESSIBLE: Fully mechanical key safe requires **no additional power or internet connection**. **Reliable access to your keys 100% of the time**.

LONGEVITY & RELIABILITY: **Made from Zinc Alloy** known for its strength, anti-corrosive properties and attack resistance.

COMFORTABLE USE: **Large 7mm (0.27 inches) soft-touch illuminated buttons** allow easy use for all ages from children to elderly. The **button illumination improves visibility and enhances usability in low-light conditions**, ensuring effortless 24/7 operation at any time of day or night.

ALL WEATHER DURABILITY: Wolflok is **rust and water resistant** and includes a weather-resistant cover made from tough ABS plastic for further protection, **designed for outdoor use**, mounted onto external walls.

FUNCTIONAL USE EVEN WITHOUT ILLUMINATED FEATURE: Ensuring **reliable access** at all times.

5 YEAR EXTENDED WARRANTY: The Wolflok police preferred key safe range comes **with 5 years warranty when registered on Wolflok website**. Only for mechanical parts. **Illumination module is covered by 2 years warranty**.

Technical Specification

⛶ Dimensions

Dimensions Exterior Excluding Weather Cover (HxWxD)	150 x 77 x 72mm 5.9 x 3.0 x 2.8 inches
Dimensions Exterior Including Weather Cover (HxWxD)	160 x 85 x 75mm 6.2 x 3.3x 2.9 inches
Dimensions Interior (HxWxD)	93 x 58 x 21mm 3.6 x 2.1 x 0.8 inches
Weight	2.1kg / 4.85lbs

✔ Regulatory Compliance

Security Rating	LPS 1175: Issue 8, A10 When fitted with the supplied fittings on brickwork, concrete or stone. When above surfaces are rendered (up to 20mm/0.8 inches), alternative fitting kit WFK001FK must be used.
US Safety Standard for Button Cell or Coin Batteries	ANSI/UL 4200A
RoHS Compliant	RoHS – SI 2012/3032 and 2011/65/EU
FCC Rules and Regulations	Part 15 Subpart B AND ANSI C63.4-2014

🌿 Environmental

Operating Temperature	-30 °C to 50 °C / -22 °F to 120 °F
Cyclic Humidity	Maximum relative humidity of 96%rh
Chemical Resistance	Resists damage from common household cleaners
Dust and Water Resistance	IP55 (limited ingress permissible)
Salt Mist	2 hour salt spray at 35 °C / 95 °F 22 hour storage at 40 °C / 104 °F

🔋 Power

Illumination Module Battery	Included: Replaceable Renata CR2032 3-Volt Lithium Battery, 2 year life or 2000 Cycles. The key safe is not reliant on power to operate. Replacement illumination module available.
Lithium Metal Battery	Up to 75mg (0.00265oz) lithium content. Contained in the equipment (UN3091). Battery complies with UN 38.3.

📦 Ordering & Spare Parts

960004	WolfloK Key Lock Box
AP001	Fitting Pack - 5mm (3/16") Masonry Drill Bit and T30 Screwdriver
WFK001FK	Alternative Fitting Kit for Rendered Brickwork, Concrete and Stone - 4 off Wall Plugs and Heavy Duty Screws
AP003	Fitting Pack for WFK001FK - 8mm (5/16")Masonry Drill Bit and T30 Torx Bit
910001	Illumination Module
910007	Weather Cover
WFK311	Standard Security Screws (Fitting Screws for Wolflok and Wolflok Pro) for brickwork, concrete, stone and single walls. 4x 60mm (2.36 inches) screws self-tapping screws (as supplied with product)
